LIFE GIVING LOVE

Scott Hahn & Kimberly Hahn

In this CD set, Scott Hahn discusses the classical reasons why Christian teachers have opposed contraception, based on the "natural law," definitions of what is good for human beings and what leads to their ultimate happiness. Hahn shows how this philosophic tradition, while still legitimate and persuasive, has been complemented in recent years by a more "personalist" understanding of sexuality and the body. This "personalist" orientation is best exemplified by the teachings of Pope John Paul II, who emphasizes the "mutual selfgiving" of marital love and its full expression in children.

MOTHER OF MERCY:

Mary's Key to Restoration

Fr. Donald Calloway, M.I.C.

How is a relationship with Mary the key to restoration and renewal in the Church today? Why do so many Catholics turn to Eastern spirituality or the "New Age" movement when we have Our Lady's Rosary? What is the role of the Blessed Mother in the true foundation of the Catholic priesthood? Recorded before a live audience, *Mother of Mercy: Mary's Key to Restoration* answers all these questions and much more.

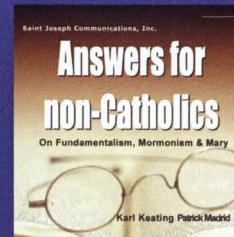

Item 7512 \$23.95

ANSWERS FOR NON-CATHOLICS

Karl Keating & Patrick Madrid

Defending Catholicism against the ignorance and prejudice of Fundamentalists, Mormons and others is often difficult and discouraging. So many time-worn arguments and misunderstandings divide Catholics from our separated brethren that it's hard to even know where to begin. However, in this classic apologetics series, *Answers for non-Catholics* two well-known Catholic apologists show how making the case for the Church with non-Catholics can be done in a way that is effective and profitable for them—and for you too!
